PRESS RELEASE

## **Axolot Solutions has signed a trial agreement with a customer in the environment and recycling sector**

**A trial agreement has been signed with a Norwegian customer who wants to improve its environmental performance regarding water purification.**

The customer takes care of contaminated water from various actors, for purification. The main purpose of the trials is to separate suspended substances and emulsified oil from water contaminated in oil extraction activities. The trials will be carried out at Axolot's premises in Landvetter, during the autumn.

Martin Ragnar, President and CEO of Axolot Solutions, says in a statement: "Yet another customer having challenges with the purification of oil in water now wants to try the AxoPur technology. This order also marks an important step geographically as we are now making a targeted effort to enter the Norwegian market."
